Summary

Front End JavaScript developer specialized in front end development by combining broad background with strong technical skills. Experienced with all stages of the development cycle for dynamic web projects. With 4 years of hands on experience and well versed in numerous programming languages including **React**, **TypeScript**,**SQL, JEST, RTL, JavaScript**, **HTML**, **CSS3, java etc. Skilled in designing, developing, and testing multiple web-based applications. Exceptionally** creative and knowledgeable in a wide Advanced Javascript libraries and framework as well as the principles and techniques of website construction and maintenance with superb work ethic.

Technical Skills

- JavaScript
- Typescript
- React
- Front end unit Testing
- React Hooks
- JEST, RTL
- Redux
- Node Js
- Front end testing
- Mongo DB
- RESTful APIs, web services
- Styled Components
- HTML5/CSS3
- Bootstrap 5

SASS
Graphql
GIT, Github
UI/UX Design
Agile Development
Software Design & Development
Visual Studio Code
MVC

Interpersonal Skills

- Communication Skills
- Team Lead
- Problem Solving
- Critical Thinking, Creativity
- Open-Mindedness
- Leadership

Innovative
Service-focused
Management (People,Time,Project)
Adaptability
Teamwork and Collaboration

Experience

Tredence :- Senior Fullstack developer (2022 – Present) :-

- Leading team of developers and handling enterprise level React project for organisation.
- Developing high-quality , clean, reusable code for both front and API. Handling multiple tasks
- Worked on 4 react/Next js project with best practices and high performance fast application
- Applied jest and RTL to test Application along with Several R & D to implement new features.

Merck Life Science,Bangalore (KA)-UST

- Around 2.6 years of experience on cross platform Web/Client Server applications design and development

- Extensive experience in cross-browsers JavaScript, React, Coding to offer responsive web applications to modern browsers mobile device

- Expand features ,refine code and improve processes ,producing smoother operations and enhancing user engagement
- Deliver engaging user experience through optimization of images ,code and increasing time and page by +60 seconds for three large web applications
- Produced stunning visual elements of web applications by translating UI/UX desgin wire frames into optimized JavaScript and React code while producing high quality , reusauble components and web design principles using React ,Typescript ,JavaScript ,HTML 5 and other web languages etc
- Ensure effecient web development by supporting other team members ,designers and web developers while resolving website performance issues
- Migrated a multipage user experience into a single page app which improve customer engagement by 10%
- Explored a hands on experience while working on new technologies with several teams including Excel Automation , SAP UI 5 , EVA ,SharePoint and documentation etc and successfully delivered it up to the expectations
- Worked in Scrum and AGILE methodology for software development

Key Projects(LIVE)

TALP Store, TALP- customer, SCITM (REACT,NEXTJS, NODE JS, SQL, JEST)
LXP(React Project ongoing 2021 Aug 2-ongoing), bootstrap, sass, sql , etc.

GRC Front End Developer (June 2021- till now) Tool Used- React, Typescript, JavaScript, Unit testing, Bootstrap, Sass, Styled Components, CSS3

Description- It is IT Security tool in which all the projects have to go through the Security Requirements before the Go- live and expectations for the same security requirements needed for the project..

 Role & Contribution-

- Designed user interface for the Application using **React, Typescript, CSS3, HTML5 and JavaScript**.
- Collecting Requirement for Application

- Attended daily **Scrum** meetings, kept Up to Date on best practices for **JavaScript** frameworks and techniques.
- Produced Client-side validation through **JavaScript** and **Ajax** for asynchronous communication.
- Maintained User Interface
- Checking status of Progress and delivering requirement.

Plan IT Front End Developer (july2020- oct 2020) Tool Used- React, Typescript, JavaScript, Unit testing (Jest & React testing libraries), Bootstrap, Sass, Styled Components, CSS3, PWA

Description- It is Resource & Projects Management web application in which Admin/Manager/ User can allocate projects, available resources. Can check the available resources and all the information of that resource so that he/she can be utilized. Manager can select/accept/reject the Projects from dashboard and lots of other activities like assigning managers to particular projects.

Role & Contribution-

- Worked closely with Business teams on aligning business requirements with technical ones.
- Strict adherence to **W3C** standards and cross browser compatibilities.
- Designed and implemented multiple new features in Plan IT like Progressive web app, unit testing single handedly, iplimented offline page and page responsiveness.

DAP (Digital Access Platform) Front End Developer (Oct 2020- Dec 2020) Tool Used- React, Typescript, JavaScript, Unit testing, Bootstrap, Sass, Styled Components, CSS3

Description- It is IT Security tool in which all the projects have to go through the Security Requirements before the Go- live and expectations for the same security requirements needed for the project

Role & Contribution-

- Designed and integrated new features and requirement using **React, Typescript, CSS3, HTML5 and JavaScript**.
- Collecting Requirement for Application and delivered result within timeline.

My Site (Chemicals incident web application) Front End Developer (jan 2021- ongoing 2021) Tool Used- React, Typescript, JavaScript, Unit testing, Bootstrap, Sass, Styled Components, CSS3

Description - It is incident creation tool. Incident can be of safety or maintenance type. Based on the incident created different action is performed by different roles. Super user- Super user is responsible to assign site admin to respective sites.

Role & Contribution-

- Produced Client-side UI through React, **JavaScript** and **Ajax.**
- Maintained User Interface
- Checking status of Progress and delivering requirement.

QAR(Quaterly Analysis Report) Front End Developer (July 2021- Aug 2021)
Tool Used- React, Typescript, JavaScript, Unit testing, Bootstrap, Sass, Styled Components, CSS3
Description – It is a R&D application developed for Merck life science which include new feature JSONLogic that allow user to create logic and separate from UI or user In order to make App platform independent.

Role and Contribution:-
   • Single handedly developed full application with new feature.

My Time Tracking (Sep 2020- Oct 2020) Junior SAP UI5 developer
Tool Used: - SAP UI5, JavaScript, CSS3.

Description: - Sap application made for Merck life science

Role and Contribution: -

✦ Produced client side validation through **JavaScript** and **Ajax** for asynchronous communication.
✦ Developed UI for client using SAP components following MVC Pattern

SO, and PO Macro Macro developer Tool Used :- Excel VBA

Role: - Developed Macro for complex Excel to automate huge task of handling large data manually.

EVA EVA Developer
Role: - Developed User Interface following Merck user design using own platform tool , Sharepoint, HTML5, CSS3.

Internships & Trainings

INDIAN INSTITUTE OF TECHNOLOGY- BENARAS HINDU UNIVERSITY (IIT BHU) Role- Web Developer Full Stack Internship
Description – NLP Multi Page Website that consist of user login and authentication using JavaScript, HTML, CSS3.

MERCK (LIFE SCIENCE) Role- Front End Developer
Description - Involved in various projects and technologies. Developing web applications learnt to adapt and contribute in larger team and followed DevOps strategy.

Education

SHRI SHANKARACHARYA COLLEGE OF ENGINEERING AND TECHNOLOGY [2015-2019]
Degree- Bachelor's of Computer Science and Engineering
Aggregate- 67.7%

C.B.S.E (AISSCE Senior Secondary- 2014)
Degree- Senior Secondary (12th)
School – Tulsi Vidya Niketan , Nagwa, Varanasi
Aggregate- 64%

C.B.S.E (SSC High School/ Higher Secondary- 2012)
Degree- Higher Secondary (10th)
School – Tulsi Vidya Niketan , Nagwa, Varanasi
Aggregate- 8.4 CGPA

Certifications

- Modern application Development with Node.js on AWS (Amazon Web Services- Coursera) Duration:- 6 weeks Grade – 8/10

- Fullstack Web development with React (By the Hong Kong University of Science and Technology)

   Platform- Coursera ○ Build ECcommerce Shopping Cart By React & Redux 2020Edition(Udemy)

- Epic React by Kent C.Docs(ongoing)

Languages

- English
- Hindi
- German(Beginner)

Hobbies

- Music
- Guitar
- Sketching, Drawing
- Video Games,
- Poems
